Minneapolis, MN

SUMMARY

I'm inspired by the wonderful people around me, and by my own dedication to becoming the best version of myself, and software developer, that I can be. When I'm not coding, I love rock climbing, reading, exercising, and having deep, thought provoking conversations about Tardigrades.

EXPERIENCE

08/2022 - Present **Software Engineer**

Prime Digital Academy

- In addition to my experience I've gained through this program, I also have a year of self-study where I began learning the fundamentals of Javascript, HTML, and CSS.
- **Solo project "Missing Link"** - designed to assist patients and researchers to compare traits, attributes, and symptoms between users with diagnosed conditions/diseases in the hopes of discovering matches between those who share the same ailment. This provides researchers an alternative method for discovering seemingly unrelated paths of discovery for currently incurable disorders and otherwise.

07/2019 - 07/2022 **Waiter**

07/2019 - 07/2022

- Mallards

04/2019 - 02/2020

- Village Inn

10/2017 - 02/2019

- Axel's Bonfire (Grand Ave & Blaine)

01/2017 - 09/2018

- Tobies Restaurant and Bakery

Duties & Achievements:

- Perfected time management
- Completed every task efficiently and on time
- Mediated customer discrepancies
- Provided great dining experiences for customers of every race,
 - religion, and background
- Learned the value to work well in diverse, team-centric settings
- Often required to perform short staffed under pressure and still managed to ensure
 - a smooth customer experience
- Always maintained great communication amongst coworkers,
 - managers, and customers
